

Serial No. 10/721,582

PATENT

REMARKS

As required by the Examiner in the Office action of November 15, 2005, the text of withdrawn claims 2,3, and 11 and their status have been provided in the amended claim list. In regard to the claims that were added in Applicant's response of August 31, 2005, claims 14-19, 21,22,24, and 25 read on the elected species from the three categories identified in the Office action of December 29, 2004. In addition, Applicant is correcting the error in dependent claim 21 so that the claim now depends from claim 18 instead of the dependency being undetermined. With these issues addressed, Applicant requests a favorable examination of the pending claims and invites the Examiner to contact Applicant's representative should any other issues remain.

Respectfully submitted,

Joseph F. Obermiller
